

# Welcome.

Welcome to the growing family of county employees across the nation who are signing up for a better retirement. By joining your County's Deferred Compensation Program you are on your way to making a real difference in your financial future.

Together with the National Association of Counties (NACo), your new plan provides you with added advantages not found in traditional supplemental retirement programs:

- **It is monitored by your peers and your association**  
NACo's Advisory Committee, made up of participating county officials, continuously oversees the plan. Add to that the supervision from NACo's staff and partnership with 42 state associations of counties, and you have a program that knows your best interests and is committed to watching over them.
- **It offers service you can trust**  
For more than 20 years, our program has consistently demonstrated a high level of quality and suitability for county employees nationwide.
- **You benefit from strength and value in numbers**  
A large asset base built from the hundreds and thousands of county employees who contribute to your program provides even greater opportunity for your investments.

Participating in the plan is easy. You contribute a portion of your pay to your plan account each payday through convenient payroll deduction. Once in the plan, tax advantages give your retirement investments the ability to grow tax-deferred.

Like the commitment you make to your community every day, ours is the same to you. We are excited to offer you this worthwhile opportunity and we hope you will begin today to start making your retirement dreams a reality.

Sincerely,  
Larry E. Naake, Executive Director  
National Association of Counties
